PROPERTY DESCRIPTION

Experience the difference in this unique custom home with soaring ceilings & dramatic architecture. From the moment of entrance into the foyer, the cathedral ceiling, travertine flooring and chandelier will have you in awe. The cathedral ceiling continues to the family room boasting maple in laid Brazilian cherry flooring, limestone fireplace, Knotty Alder custom cabinetry and french door access to a beautiful brick paver patio. Adjacent to the family room is the unbelievable gourmet kitchen. Sure to impress even the most discriminating chef, its features include a massive center island with vegetable sink & disposal, a breakfast bar with granite countertop, a viking oven/range, a built-in wine bar, and surround sound, to name a few. Gourmet meals deserve a first class dining room. With chandelier, crown molding, arched doors and french door access to the terrace, this formal dining room lives up to the highest standard.

The same custom touches play throughout the home, from the crown molding in the living room to the plantation shutters in the den, mud room and bedrooms. The second floor presents two amazing retreats - a master bedroom suite and a junior suite. The master boasts a sliding glass door to the terrace and a sitting room, while the master bathroom is a spa-like experience with its Jacuzzi tub, marble travertine walls, recessed lighting and full body shower. The junior suite offers equally impressive features such as a skylight and tandem room. Two additional bedrooms and a loft study area touting walk out access to the terrace complete the second floor.

Warm months bring a whole new experience to this beauty when you can entertain outside in the fully fenced professionally landscaped backyard boasting a wooden playset, sprinkler system, brick paver patio, professional lighting and two autumn blazes. With too many other bonus features to mention, quite simply put, this Elmhurst gem is 5,000 square feet of luxury living.
